SUMMARY

Senior FullStack Developer with 7+ years of experience, including 4 as a team lead. Focused on delivering pixel-perfect, scalable web app and e-commerce platforms for high-end fashion brands. I specialize in Vue.js with obsessive attention to performance, UI precision, and design systems. I don't just code: I anticipate edge cases, design for long-term scalability, and push teams toward the cleanest, most maintainable solution. I thrive in fast-paced, creative environments where quality is non-negotiable and each detail matters.

WORK EXPERIENCE

LEAD FRONT END DEVELOPER
Faume | May 2021 - Present

- Delivered 35+ e-commerce for leading luxury brands (Lacoste, Victoria Beckham, Isabel Marant, Ami Paris, Temperley...) in Vue 2 and 3 & Nuxt.
- Developed of Page Builder with Vue 3 & Nuxt, Tailwind & Pinia..
- Developed a tracking order & account packages in Vue 2 & Vuex in monorepo.
- Led the atomic design implementation in Figma, creating a scalable UI system that powers Faume's custom Vue.js e-commerce platform capable of producing front-ends in under 3 hours instend of 2 weeks.
- Trained and mentored 4 developers on Shopify and Vue.js, improving internal expertise and delivery capacity. Sharing knowledges is the key.
- Led the development of a scalable back-office platform used by 1000+ internal users, 50+ uniques pages, built to evolve with the company's growth and operational complexity.

FRONT END DEVELOPER & SHOPIFY EXPERT
W3Lead | Jully 2019 - Jully 2021

- Delivered e-commerce stores from scratch for high-traffic fashion brands (Citadium, Jimmy Fairly, Cabaïa...), combining UX, SEO, robust code quality and pixel-perfect interfaces. 7 stores generate over 1M€, and 3 over 100M€ annualy.
- Engineered performant, multi-million revenue e-commerce platforms in both Shopify and PHP ecosystems, tailored to demanding scalability and reliability needs.
- Acted as the bridge between design and tech, translating creative direction into clean, responsive interfaces with seamless brand consistency.

FRONT END DEVELOPER
Fidesio | June 2018 - Jully 2019

- Started my career at one of Paris's top digital agencies, where I built a rock-solid foundation in UI precision, component logic, and high-quality collaboration.
- Contributed to large-scale web projects for major clients across industries, including Airbus, Butagaz, Les Laboratoires Léo, and Théâtre in Paris, all with high technical and design expectations.
- Built interfaces with a sharp focus on UI accuracy, performance, and clean architecture, laying the groundwork for my specialization in high-end development.
